Digital China Holdings Limited

1H24 Results Presentation

September 2024

Disclaimer

This presentation may contain certain projection and forward looking statements that involve risks, uncertainties and assumptions. If the risks or uncertainties ever materialize or the assumptions prove incorrect, the results of Digital China Holdings may differ materially from those expressed or implied by such forward looking statements and assumptions. All statements other than statements of historical fact are statements that could be deemed forward looking statement, including but not limited to any projections of revenue, margins, expenses, charges, earnings or other financial items; any statements of the plans, strategies and objectives of management for future operations, including execution of any restructuring plans; any statements concerning the expected development, performance or market share relating to products or services; any statements of expectation or belief; and any statements of assumptions underlying any of the foregoing. Risks, uncertainties and assumptions include macroeconomic and geopolitical trends and events; execution and performance of contracts by suppliers, customers and partners; employee management issues; the challenge of managing asset levels, including inventory; the difficulty of aligning expense levels with revenue changes; expectations and assumptions relating to the execution and timing of workforce restructuring programs. In addition, statistical and other information relating to the PRC and the technology industry contained in this presentation have been compiled from various publicly available official or unofficial sources generally believed to be reliable. However, the quality of such source materials cannot be guaranteed. Moreover, statistics derived from multiple sources may not be prepared on a comparable basis.

Use Cases

A.I. Applications: Digital Twins & Codeless Platform Applications

Smart Cities

Smart Supply Chains

FinTech

.....

Data+A.I. Product

Data Asset

Software Products: High-Quality Data Tools and Platform

End-to-end data tool suite:

Collection ▶ Aggregation ▶ Governance ▶
Analysis ▶ Digital Twin ▶ Circulation

Digital-native supply chain product:

Supply Chain Execution System + Visualization
Platform + Intelligent Decision-making Platform

Professional Services

End-to-end supply chain operation + software and hardware maintenance services

(Expertise spanning two decades)

Channel Business

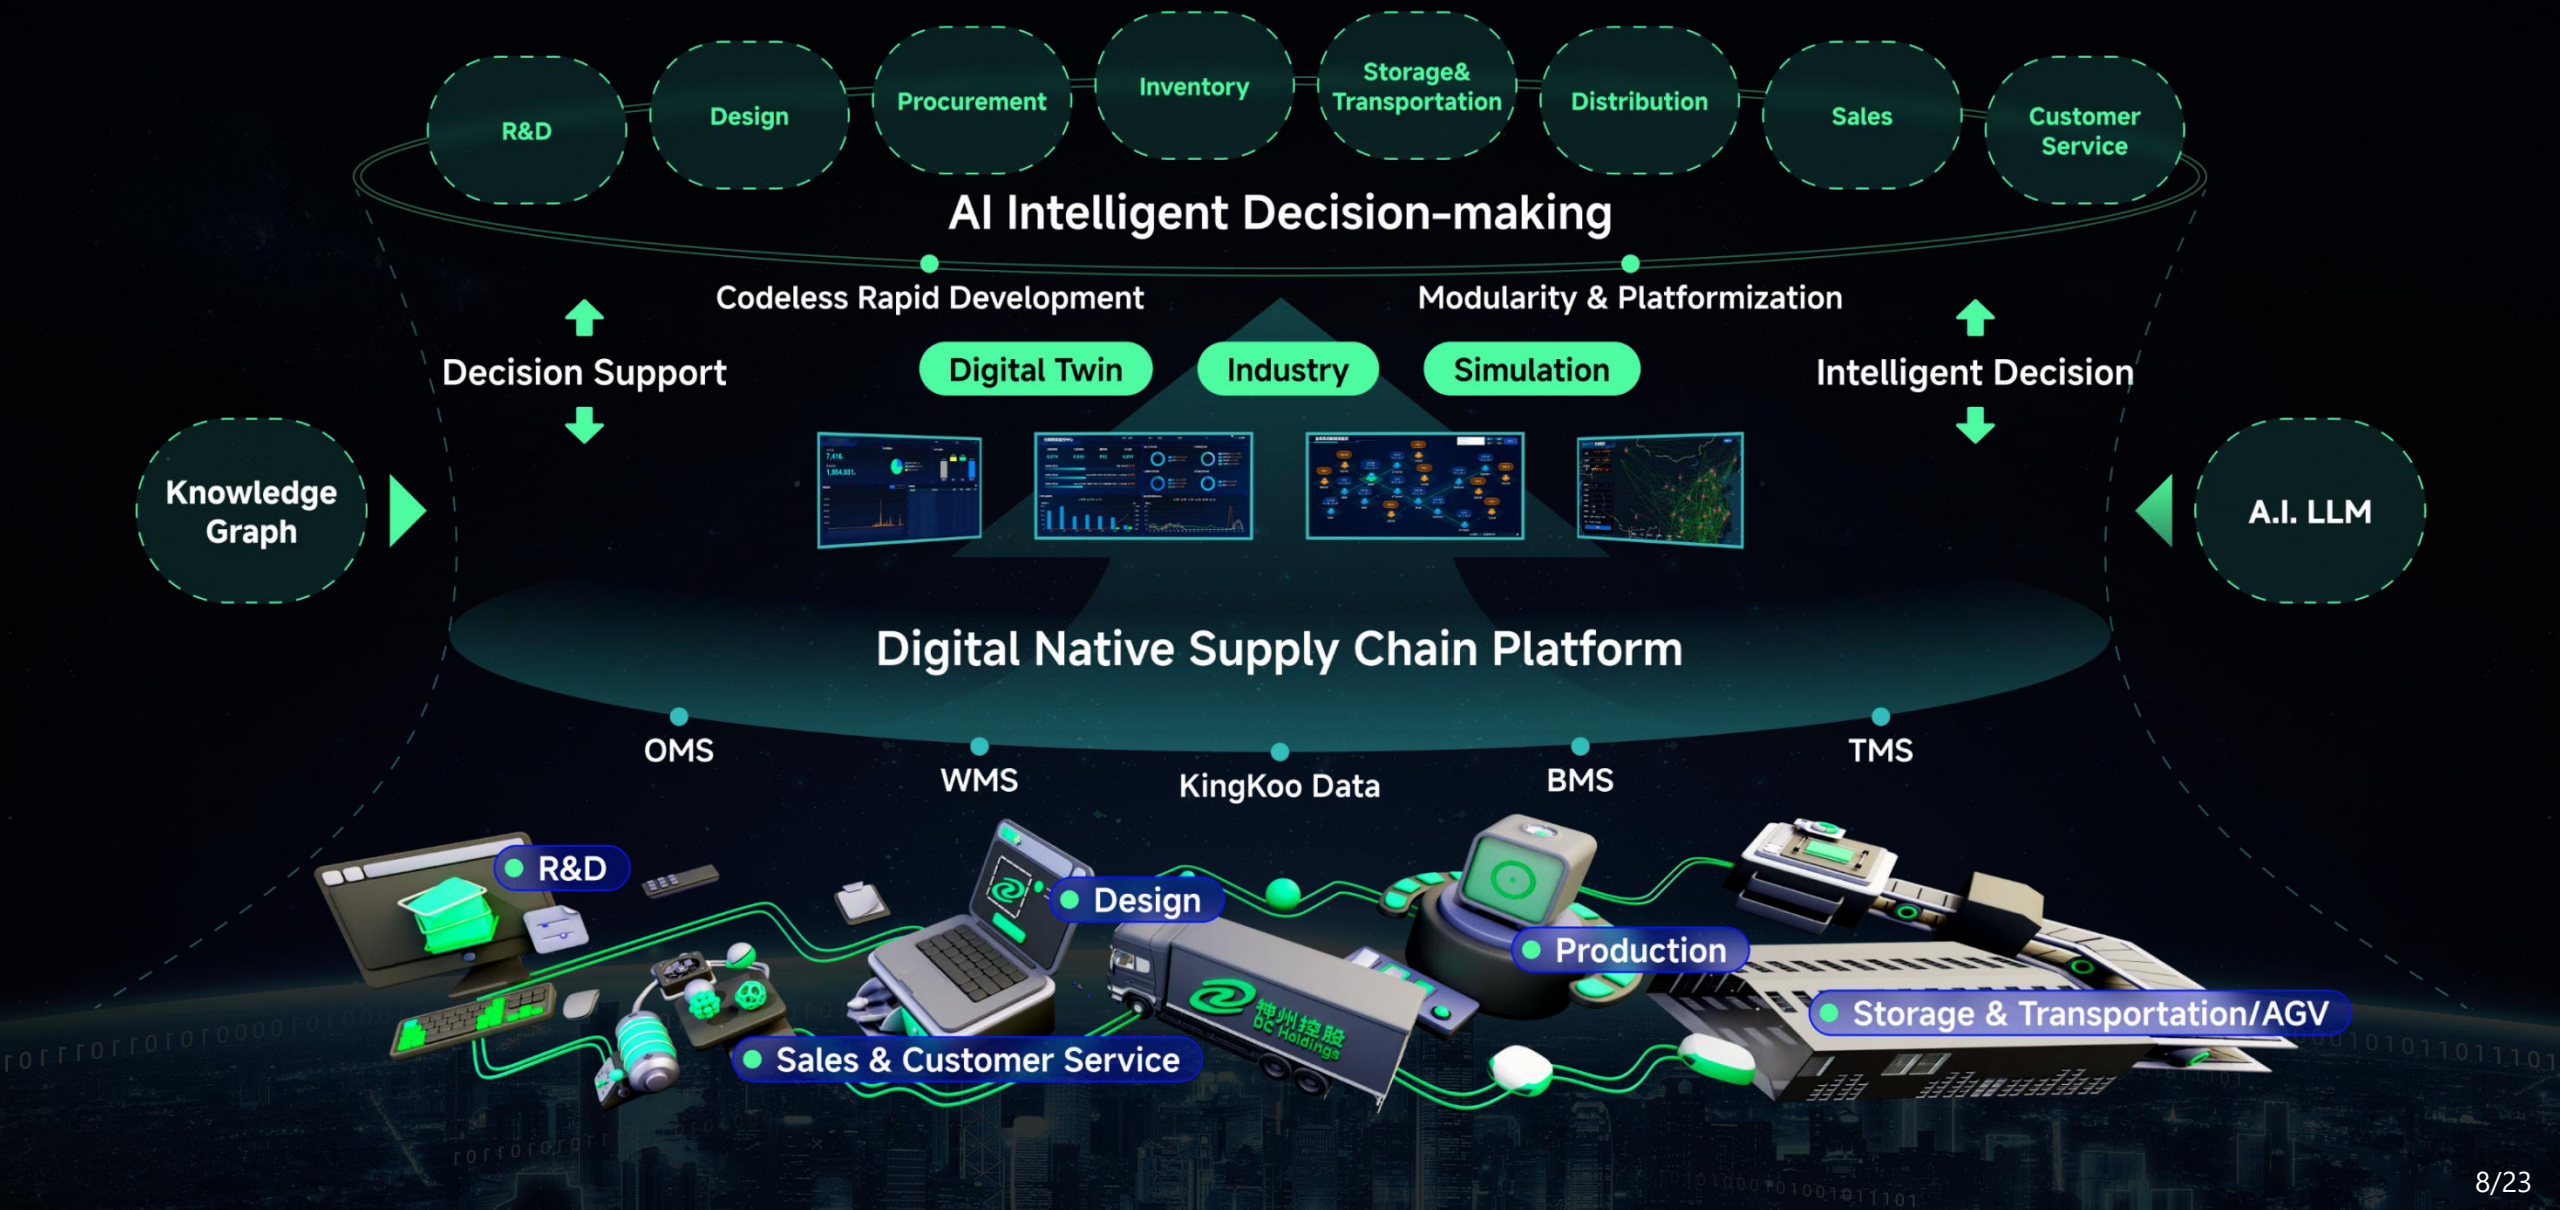

IT A.I. Full-stack service + E-commerce operation services

(Extensive upstream and downstream channel resources globally)

City CTO: Empowering Digital Transformation

Enterprise CSO: End-to End Service Capabilities

02

Financial Highlights

Performance Summary | Key Highlights | Use Cases

1H2024 Key Financial Metrics

Revenue

7.01bn

▲ YoY **5%**

Net profit attributable to equity holders of the parent company

10.81mn

▼ YoY **-73%**

Big data revenue

1.28bn

▲ YoY **17%**

Revenue
(excluding DCITS)

2.94bn

▲ YoY **20%**

Net profit attributable to equity holders of the parent company
(excluding DCITS)

40.96mn

▲ YoY **380%**

Overseas revenue

0.47bn

▲ YoY **55%**

Significant Growth in Core Business Performance

Revenue

■ Excluding DCITS ■ DCITS

Unit: RMB'000

Net Profit Attributable to Equity Holders of the Parent Company

■ Excluding DCITS ■ DCITS

Rapid Expansion of Big Data Business

Revenue from Big Data Products and Solutions

No. of Clients and ARPU

* Signed but undelivered contracts of big data products and solutions was RMB 2.42 billion, representing a year-on-year increase of 15%.

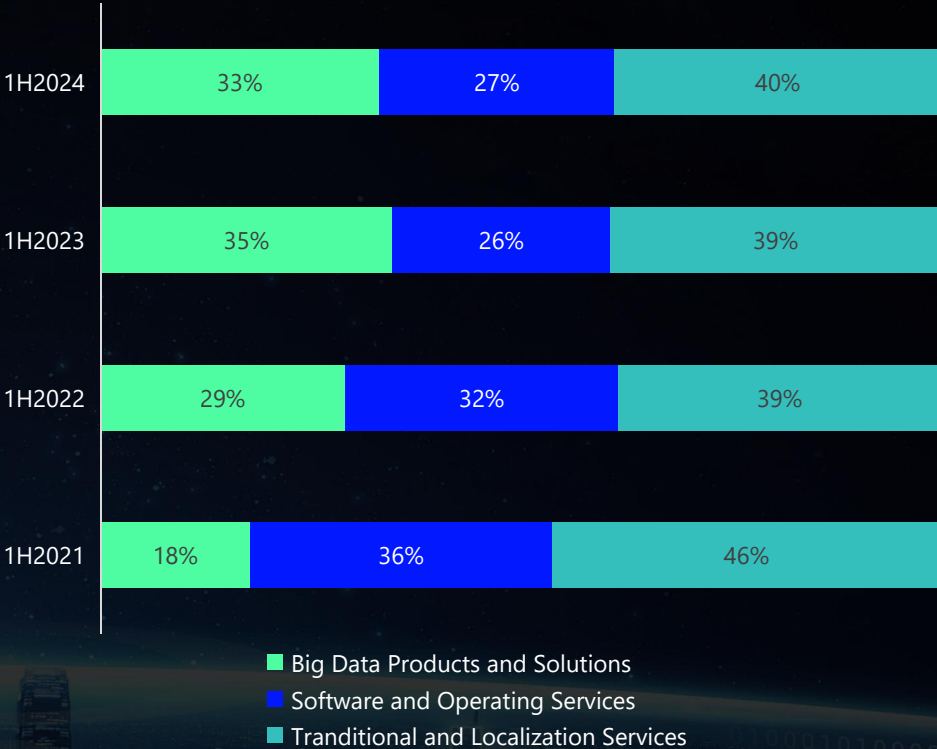

Ongoing Business Structure Optimization

% of Revenue by Segment

% of Gross Profit by Segment

Proven Execution of Overseas Strategy

Revenue from Overseas Business

Unit: RMB'000

Proportion of Overseas Revenue

Validated Innovation Model

Enhancing the innovative “**City CTO + Corporate CSO**” model by accelerating **enterprise** expansion and obtaining **effective valuation from customers**

■ City CTO

- Phase I of Hong Kong's Super Computing Center
- Phase II of the Changchun Computing Center “A.I. + Industry Model” Software and Service project
- Macau University of Science and Technology's Marine Meteorological Forecasting
- Jilin Province Smart Water project

.....

■ Enterprise CSO

- Geehy Microelectronics data governance project
- Supply Chain Control Tower project for a blue-chip food manufacturing enterprise
- Supply Chain Data Management and Application Solutions for the Manufacturing Industry

.....

Collaborative Partnerships with Research Institutions and Industry Associations

Global Ecosystem Integration Capability

DC Holdings operates a Smart City business that is intricately involved with governmental operations across more than 500+ cities. This extensive collaboration provides DC Holdings a unique and comprehensive perspective on governmental processes and needs.

Our expansive network encompasses a supply chain of over 30,000 enterprises, encompassing more than 80% of IT suppliers. This ecosystem collaboration can elevate the value across the industry chain and advance the integrated development of the digital economy.

DC Holdings Ecosystem

1,000,000+ customers till date. Steadily enhancing and advancing initiatives in digital transformation across various sectors such as finance, retail, auto, education, manufacturing, culture and healthcare

International strategic cooperation with 300+ world-class enterprises including NVIDIA, AMD, Intel, Samsung, Oracle, Sigfox, HP, Cisco, VMWare.

The distribution network spans 297 cities and 3,229 districts within China, reaching out further to international markets including Malaysia, Indonesia and Thailand. On average, the network efficiently handles over 5 million orders daily.

04

Outlook & Aspirations

Core Technology | Overseas Deployment

"Dual-Core" Technology

Core 1

Entity Model
Business Twin

AI Intelligent Application

<Tool>

- 【3+N】 Multi-Industry Expansion
- 【1×N】 Standardized replication

Smart Cities

Supply Chain

Fintech

Manufacturing

Waterworks

Chinese Medicine

Low Altitude
Surveillance

Satellite Remote
Sensing

Transport

Core 2

A.I. LLM

Ecological Platform Capabilities

LLMs need < TOOLS >

Modularization & Platformization

- A.I. applications enhance structured data through modular platforms, clearly defining **entities and their relationships**, thus enabling complex and insightful A.I.-driven decisions.
- A.I. applications empower businesses to simplify complex business patterns and rapidly deploy optimal, agile solutions.

Overseas Business Expansion

Initial Development

Overseas Deployment

Industry Coverage Expansion

Outbound Breakthrough

Ian Fu

VP

Expert in the fields of TMT, Information Technology, Smart Cities and Data Analytics. Ex-China Communications Services General Manager.

Yale Shen

CTO

Senior scientist in the fields of big data, blockchain and artificial intelligence. Ex-Cisco Chief Cloud Architect; Ex-Microsoft Head of Technical Team for Strategic Planning

Maria Kwok

COO

Management experience at Fortune 500 companies focused on M&A and business strategy. Ex-Intel President of Solutions; Ex-Microsoft President of Greater China M&A and Strategy

Sun Yang

SVP

30+ years of experience in fintech, investment and financing and asset management. Ex-China Orient AM Assistant General Manager; Ex-Dongfang Bangxin Chairman

Victor Cheung

VP

30+ years of MNC experience in the semiconductor, technology and supply chain sectors. Ex-Arrow Electronic VP
